Adapted 932-particle no-tilt diagnostics | 300 Hz | no task acceptance
A Native step accounting
Physics-only step: all 30 observations
Mixed render step: 3 observed checkpoints
(1, 5)
(15, 23)
(30, 42)
Native physics callback count
Logical loop iterations
B State equivalence remains unresolved
Repeated identical configuration
Isosurface on / off comparison
Frozen 0.1 mm equivalence gate
Max corresponding-particle difference (mm)
Verified native physics step
